

LOCAL CHURCH ENDORSEMENT

After an applicant for the ministry has been approved by the local pastor, the district overseer, and the administrative bishop, he/she must be approved by the local congregation. The congregation should consider the areas of evaluation contained in the Pastoral Recommendation before taking action on the endorsement. This consideration may take place in either a regular conference or a conference called for this particular business.

If the applicant is approved by the local church in conference, the following certificate should be completed and submitted to the district overseer and the administrative bishop.
